RESTORE. PRESERVE. BEAUTIFY.

Professional graffiti removal services you can trust:

- The KC Restoration team of experts only uses products specifically made for graffiti removal that will not damage exterior stone, brick, metal or precast concrete surfaces.
- Our products will not bond graffiti stains to the surface and harm the substrate.
- Our experienced personnel can remove difficult graffiti stains through an in-depth cleaning process.
- Our team will not work on the substrate in direct sunlight or during the hottest part of the day when the substrate radiates heat.

KC Restoration is a full-service restoration company, utilizing the latest in technological advancements to provide high quality refinishing services for stone, metal and wood surfaces in addition to escalator cleaning and hot pressure system services. Our processes and procedures increase the value, improve the impression and maintain the appearance of your facility.
