

Wood Refinishing and Maintenance Project

Location: Leawood, Kansas

Type of Surface: Wood

High-end mixed-use facility of office and retail space improves appearance with wood surface restoration.

Problem: Wear and tear from everyday contact with people and objects caused dirt and scratches to accumulate on the wood trim resulting in an unappealing appearance for a high profile facility.

Solution: KC Restoration provided cleaning, touch up, repair, scratch removal, and polishing services to the wood baseboard and wainscoting.
