

Helping Construction Companies

High-quality refinishing services for metal, stone, and wood surfaces and deep cleaning services for facades, exteriors, and escalators.

AFTER

Core Competencies

- Self-performing metal, stone, and wood refinishing
- Self-performing facade and exterior surface cleaning and sealing
- Self-performing escalator and people mover cleaning
- Management and coordination of quality subcontractors for services beyond our self-performing work
- Project Management
- Safety Compliance

Differentiators

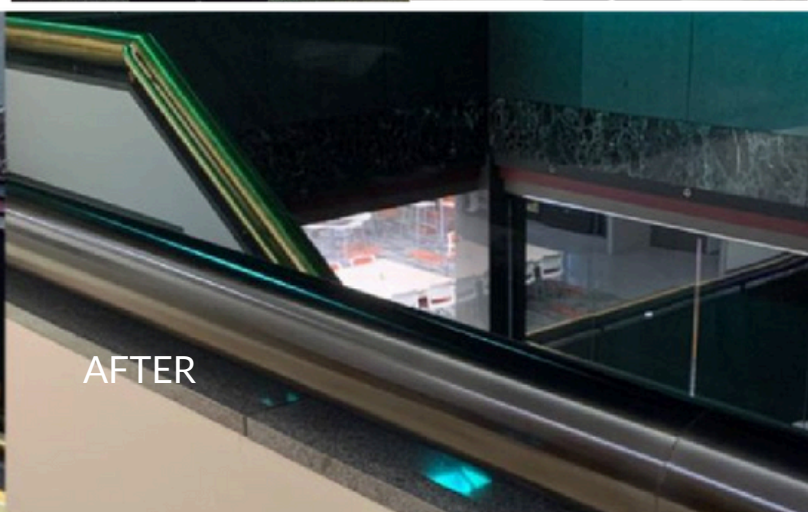

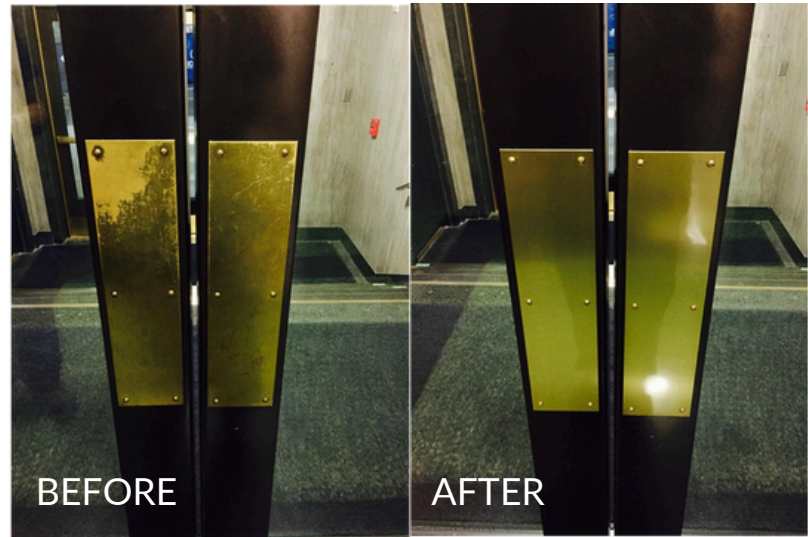

- **Service:** Our team has over 100 years of combined experience on government and commercial refinishing projects
- **Quality:** Our team provides service solutions while maintaining reliability and top-quality performance
- **Safety:** All technicians have at least 10 hours of OSHA training
- **Communication:** Constant communication including before and after photos of completed work
- **Reassurance:** All employees are background checked and drug tested

Helping Construction Companies

KCR is the preferred subcontractor for a wide range of services, including metal coatings, scratch removal, custom patina applications, and stone refinishing for several construction companies throughout Kansas City.
